COHERENCEBRIDGE CONSULTING

Audit Finding Resolution

From findings to lasting improvements.

Sustainable remediation requires an understanding of the underlying causes, dependencies and organisational implications of audit findings.

Understanding the challenges

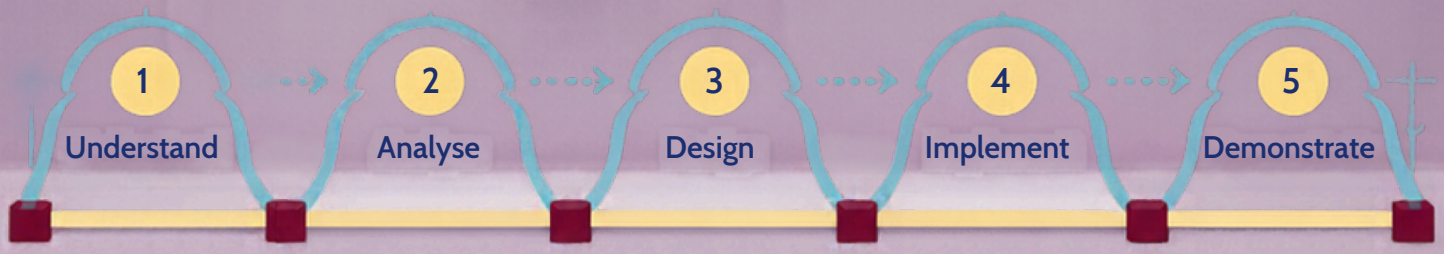

- Unclear remediation and closure expectations
- Findings addressed in isolation
- Insufficient root cause analysis
- Fragmented responsibilities and remediation activities
- Inadequate evidence supporting closure

How we support you

- Consolidation and assessment of audit findings
- Analysis of underlying causes and dependencies
- Interpretation of audit and regulatory expectations
- Definition of closure criteria and evidence requirements
- Development and assessment of sustainable solutions
- Remediation planning and implementation support
- Independent assessment of closure readiness

Our approach

Beyond closing the finding

Sustainable solutions that strengthen processes, controls and organisational effectiveness.

CoherenceBridge Consulting

Different Perspectives. Coherent Solutions.
